About Our Practice

Southern Healthcare Network is a full-service family practice, providing care for children adults and seniors.

As an integrated healthcare practice featuring primary care physicians, Southern Healthcare Network is uniquely positioned to offer custom care based on both traditional and novel approaches.

In addition to diagnosing and treating illnesses, our practice offers a broad range of treatment options for chronic and acute conditions, including but not limited to, mental health, substance abuse and a full range of preventive care services, including lab work and disease screening.

At Southern Healthcare, patients of all ages can get the care they need without “shopping around” for multiple healthcare providers.

At Southern Healthcare Network, working toward better health is a partnership between the clinician and their patients, with the mission to provide the most comprehensive healthcare possible and available.

Southern Health care Network provides Integrated health care to individuals within North Carolina.

We recognize that a mental disorder must be treated with equal importance as a physical disorder.

Our services address physical problems and mental disorders simultaneously.

By providing integrated, comprehensive care, our approach supports the “total” person, including individuals with unique needs in reaching their recovery goals.

OUR CORE VALUES

Respect.

The fair and impartial treatment of others.

The ability to identify a need and respond with compassion.
